- Two platform sizes to accommodate regular or larger wheelchair sizes
- Indicator is EMR/EHR software ready
- Platform features slip-resistant rubber mat surface
- Low-profile ramp included allows for easy access
- Metric lockout available

# HIGH-CAPACITY DIGITAL WHEELCHAIR SCALES FOR PATIENTS OF ANY SIZE

DETECTO's FHD series low-profile wheelchair scale models offer two platform sizes to accommodate wheelchairs of varying widths. Ranging from 36-in to 48-in wide platforms, patients in regular size to bariatric size wheelchairs are provided easy access. The 28.5-in-long ramp provides a smooth transition from the floor to the scale platform.

The durable scale provides a capacity of 1,000 lb/450 kg, allowing for measuring patients of almost any weight. The platform and ramp is covered with a black rubber mat designed to prevent slippage and ensuring safe weighing for non-ambulatory or standing patients.

DETECTO's versatile MedVue weight indicator provides many benefits and options for medical professionals. This indicator offers you tare functionality and storage for wheelchair weights, measurement units switching (including metric lockout), BMI calculation, EMR/EHR readiness, and stores up to 200 transactions. Valuable options include Ethernet, WiFi, and Welch Allyn interface capabilities, permitting EMR/EHR information transmission to many important software platforms.

Model	FHD-133-II	FHD-144-II
Capacity	1,000 lb x 0.2 lb / 450 kg x 0.1 kg	
Platform Size	36 in x 36 in / 91 cm x 91 cm	48 in x 48 in / 122 cm x 122 cm
Ramp Length	28.5 in / 72 cm	
Cable Length	15 ft / 4.5 m fully extended (from scale to indicator)	
Power	Optional model MV1PWR AC adapter or 6 C batteries (not included)	
Indicator	MedVue Model MV1
